

Walk from Saint Columba's Wilston to Cathedral of Saint Stephen

All distances are approximate.

<p>0.0 km</p>	<p>Begin at St Columba's Catholic Church at Wilston, in the amphitheatre between the church and Kedron Brook Road. Seating is available for about 30 people. Parking is available behind the church. Negotiations would need to include the parish, the school and the O'Shea Centre.</p>	
---------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--

	<p>Follow the path to the right of the amphitheatre (facing Kedron Brook Road) beside the fence to Lovedale Street.</p>		
	<p>Turn left and walk towards Kedron Brook Road.</p>		
	<p>Turn right into Kedron Brook Road.</p>		
	<p>Alternatively, walk along to the vehicle entrance to the left of the amphitheatre and on to Kedron Brook Road, turn right and walk an extra 120 metres along Kedron Brook Road to the intersection with Lovedale Street.</p>		
	<p>Continue along Kedron Brook Road, past coffee and other shops. There will not be much shade.</p>		
	<p>After 700 metres, Kedron Brook Road will appear to veer to the right, but is actually merging with Silvester Street.</p>		
	<p>Continue along Silvester Street for 150 metres, under a railway Bridge, to Newmarket Road.</p>		
<p>1.0 km</p>	<p>Cross Newmarket Road and continue straight ahead in what will now be Noble Street. Homezone and then the Downey Park Hockey Fields will be on the left. Although there will be children playing sport on the fields on Saturday morning, there should be enough space to walk on the left or the right footpath. The street is fairly shady.</p>		

1.5 km	After 500 metres, Noble Street meets the Enoggera Creek Bikeway, a concrete path, at right angles. Turn right onto the path.	
	Walk 70 metres to a bridge that crosses Enoggera Creek on the left.	
	Cross the bridge.	
	After the bridge, the path continues beside a playground on the right and then veers slightly to the left.	
	About 80 metres after the bridge, turn left into Gould Road.	
	After only a few metres, Gould Road takes a right angle turn and becomes Fagan Road.	
2.0 km	After 225 metres, Fagan Road meets Butterfield Street.	
	Cross Butterfield Street and continue straight ahead in what will now be Aberleigh Road.	
	Continue along Aberleigh Road for 400 metres to Herston Road.	
2.5 km	Use the pedestrian crossing to the right to cross Herston Road.	

	<p>On the other side of Herston Road, turn left and head towards the Royal Brisbane Hospital. On the right will be visible: a rock wall, the Victoria Golf Club driveway and then the cage of the busway.</p>	
<p>3.0 km</p>	<p>After 500 metres, turn right onto the path that curves to the right and over the busway. It is a shared bicycle/pedestrian pathway.</p>	
	<p>110 metres after crossing the busway, leave the path by turning right into Gilcrest Avenue and continue in the same direction. Gilcrest Avenue has a footpath without the bicycles.</p>	
	<p>After 450 metres on Gilcrest Avenue, the street ends.</p>	
<p>3.5 km</p>	<p>Turn left onto a bridge across a small lake.</p>	
	<p>After the bridge, continue straight ahead up the stairs.</p>	
	<p>There is a longer path that would accommodate wheelchairs.</p>	

	Cross the bridge over the Inner City Bypass and the railway lines. After the bridge a rock totem donated by Canada will be visible.		
	At the t-junction of paths, turn right up the hill (ignoring the path off to the right after 50 metres).		
	300 metres after the rock totem, the path meets Gregory Terrace.		
4.5 km	Cross Gregory Terrace at the lights.		
	Straight ahead, but a little to the left of the end of the path is Fortescue Street.		
	Walk along Fortescue Street for 500 metres until it meets Boundary Street.		
	Turn left into Boundary Street.		
	Walk one block (15 metres) along Boundary Street and turn right into Little Edward Street.		
	After 350 metres, Little Edward Street crosses Leichhardt Street and becomes Upper Edward Street.		
5.0 km	Continue along upper Edward St.		
	After 420 metres, Upper Edward Street crosses Wickham Terrace and becomes Edward Street.		
	Continue along Edward Street for 1130 metres, crossing over Turbot, Ann, Adelaide and Queen Streets to reach Elizabeth Street.		
6.5 km	Turn left into Elizabeth Street.		
	Cathedral of St Stephen is 120 metres further along on the right.
